Projects Experience

WEBSTUDIO

https://dns321.github.io/webStudia/

The task was to make an adaptive, two-page Web Studio site by the layout. The work was done on my own

PLERDY

https://dns321.github.io/test-plerdy/

Responsive layout site. The work was done on our own

ICECREAM

https://dns3211.github.io/IceCream/

We made an adaptive site for selling natural milk products. The work was performed in a team of 5 people. The project had to be completed in 5 days

OLX-PROJECT

https://github.com/dns321/olx-project

It is a site similar to OLX. Users could register, have a personal account, and create ads. 7 people worked on this project

FIND MOVIES

https://github.com/dns321/movies

The task was to make SPA finder-movies. The work was done on my own

PHONEBOOK

https://github.com/dns321/phonebook

The task was to make SPA phonebook. The work was done on my own

GRID-WITH-CARDS

https://github.com/dns321/grid-with-cards

The task was to make SPA grids with cards that are added upon request and stored with the possibility of deleting them. The work was done on our own
